

Test Seaplanes For Non-Stop Hop To Canal Zone

PHILADELPHIA, Oct. 18.—Plans are being completed for the non-stop flight of two navy seaplanes from Hampton Roads to Colon, a distance of 2,100 land miles, to begin within a few days. Finishing touches are being put to the planes in the airplane factory in the Philadelphia navy yard. The flight, which will be in charge of Lieut. Commander H. T. Bartlett, is expected to be covered in from twenty-four to thirty hours.

There will be five guard ships along the route, two between Hampton Roads and Cuba, and three in the Caribbean, although the flyers themselves would prefer not to have any, and prove that the navy air force is able to take care of itself. At only a few points will the seaplanes be more than 150 miles from land to which they could taxi if forced down on the water.

The seaplanes, fully loaded, will weigh 21,000 pounds each. The gasoline for each will weigh about 9,000 pounds, the crew and equipment 2,000, and the planes themselves 10,000 pounds each. It is expected that a crew of three or four men will be carried on each.

Doctor Locked Up In Case Involving Death of a Girl

After a grilling by Assistant District Attorney McGowan early today, Dr. Robert Weiner of 182 Henry St. was locked up in the Clinton Street station on a charge of homicide in connection with the death of Beatrice Anna Garfine, 25, of 358 East 8th St.

Last night the police received a call from the doctor that a girl was dead in his office. When Detectives Harling and Mitchell arrived they found the body, but the physician had left on an emergency call.

According to the girl's parents, she complained of being ill on Saturday and said she intended to have an operation for tonsillitis. She returned Sunday afternoon and said she felt better, but weak.
